WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/US04/26158

Box No. I Basis of this opinion							
1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.							
This opinion has been established on the basis of a translation from the original language into the following language which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).							
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:							
a. type of material							
a sequence listing							
table(s) related to the sequence listing							
b. format of material							
in written format							
in computer readable form							
c. time of filing/furnishing							
contained in international application as filed.							
filed together with the international application in computer readable form.							
furnished subsequently to this Authority for the purposes of search.							
3. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.							
4. Additional comments:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/US04/26158

В	ox No. IV Lack of unity of invention
1.	In response to the invitation (Form PCT/ISA/206) to pay additional fees the applicant has: paid additional fees paid additional fees under protest
	not paid additional fees
2.	This Authority found that the requirement of unity of invention is not complied with and chose not to invite the applicant to pay additional fees.
3.	This Authority considers that the requirement of unity of invention in accordance with Rule 13.1, 13.2 and 13.3 is
	complied with
	not complied with for the following reasons:
	See the lack of unity section of the International Search Report(Form PCT/ISA/210)
	•

1	
	·
4. Co	nsequently, this opinion has been established in respect of the following parts of the international application:
] [all parts.
	the parts relating to claims Nos. <u>52-63 and claims 1-51, 64-128, 134, 135 in part</u>
Form P	CT/ISA/237 (Box No. IV) (January 2004)

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US04/26158

. Statement		
Novelty (N)	Claims 1-128, 134, 135	YE
	Claims NONE	NO
Inventive step (IS)	Claims <u>1-128, 134, 135</u>	YES
• • •	Claims NONE	NO
Industrial applicability (IA)	Claims 1-128, 134, 135	YE
	Claims NONE	NO

Claims 1-128, 134, 135 meet the criteria set out in PCT Article 33(2)-(3), because the prior art only teaches amidoether, amido, sulfonamide or sulfamide substituted imidazo-containing compound, and does not teach or fairly suggest the instant hydroxylamine

Claims 1-128, 134, 135 meet the criteria set out in PCT Article 33(4), and thus find industrial applicability because the subject matter claimed can be made or used in the pharmaceutical industry as an inducer of cytokine biosynthesis.

Form PCT/ISA/237 (Box No. V) (January 2004)

substituted imidozo-containing compound.
